TUESDAY, MAY 17, 1864.

NEFARIOUS BUSINESS.

There is not a spot upon the habitable globe where business or commerce is more harassed than in the River Plate. There is a *nefarious business* going on at present between the outer roads and the Boca, which is enriching the Italian boatman and robbing the foreign merchants.

Robberies of the most stupendous character are going on under our very nose, confiding consigners of goods in Europe and North America are cheated, and the most wholesale system of swindling ever known or heard of is perpetrated in the harbour of Buenos Ayres.

For years our friends at home have found that, notwithstanding all their care in shipping goods, the measurement of the cargo here has always proved short.

Now-a-days, however, the purloining system has assumed such dimensions owing to the impunity which heretofore existed, that lawsuits at home and abroad have been the consequence, and our friends at home have begun to form the most prejudicial opinion of the commission merchants in the River Plate.

Within the last week a cargo of pine, of between 200,000 and 300,000 feet has been found wanting *seventeen thousand feet.* This cargo was measured in the States before shipping; the number of boards shipped has been found correct, but the measurer here who is an upright and honest man, has found it his duty to acknowledge his signature in measuring the cargo he has observed numbers of boards recently *cut in two.*

Some time ago another cargo of pine was found short fourteen thousand feet. Sworn declerations and what not were made before consuls, letters and explanations were made by the measurer, meanwhile the lightermen knew more about the matter than any one else, but none dare say so.

We however who profess to care little about the lightermen, feel it our duty to call public attention to the matter.

The patrons of these lighter-boats we are informed only receive as salary some 500 or 600 dols. mje. per month. They have for the support of their large families to support on this miserable salary; expenses are high, and we all know the sequel.

We are informed by parties who are intimately acquainted with the lightermen of Buenos Ayres, that a trip on board of one of them to the outer roads is as pleasant as a shooting excursion to Colonia. The very best wines and brandies are on board *ad libitum*, and one's appetite for dinner is enhanced not only by the river breeze but by the fact that the dinner is cooked by the best English cook.

No wonder that cargoes of coal invariably fall short in measurement, no wonder that kegs of brandy and port wine are found wanting—they evaporate in crossing from the outer to the inner roads.

When anyone's what goes on between the outer and inner roads, all hands are *pazzi*, and when cargoes such as pine fall short seventeen thousand feet, it is to be wondered that the unknown parties who have corralores in this city become millionaires.

If such a vigilant river police such things could not so easily be perpetrated, but when even in the streets of Buenos Ayres the most wholesale robberies are committed, we leave it to our readers to imagine what pillage goes on nightly in the river.

PARAGUAYAN TOBACCO.

It is greatly to be regretted that a staple of so much importance as tobacco should be so little attended to in the River Plate.

The advices which we received per last English packet are such as to deter any merchant from shipping even the best Paraguayan tobacco to Europe, as it has literally ceased to have any quotation in those markets, and the holders of bales exported from Buenos Ayres last year are unable to dispose of them at any price.

When we recollect the brisk business which was springing up some few years ago in Paraguayan tobacco, and the brilliant prospects entertained by all those connected with the trade, we instantly feel surprised to find so unlooked for a result.

On a minute investition into this matter we learn that the fault lies entirely with the growers of the plant in Paraguay, who instead of curing the leaf with care, send it when half green into the market of Asuncion for sale; the consequence is, that although experienced tobacco merchants admit the leaf is as good as the Cuban, still for the want of proper care, it is almost worthless in the English market.

It behoves the Government of Paraguay to take immediate steps in the matter, as the markets of the River Plate are utterly insufficient to consume the whole crop.

There are at present some fifteen hundred bales on hand, which we are informed meet with the greatest difficulty of sale, even at declining prices.

It should be the care of the Government of Paraguay to procure some experienced tobacco curers from Cuba and the States in order that the most approved methods of curing and manufacturing the tobacco leaf of that Country may be introduced.

The operations for the May festivals occupy the attention of our policemen and augur a brilliant celebration of Mr. Wild's birthday as well as the original festive : the first accent will be on the 24th. when the aeronaut will come down by a parachute. Next day he will go up with an English and another young lady. The Municipality agrees to pay for three ascents the sum of 50,000 dols. nge.

The great exhibition at Colon, by Mr. Wells, has been postponed for a week ; the spectral mechanism will first be brought into play in the performance of Macbeth.

Next Monday is fixed for the opening of the new section of the Western Railway, to Villa Luxan. The invitations have not yet been issued, but we expect to see President Mitre, Governor Saavedra, and a large muster of the notabilities in the province of Buenos Ayres, attending on the happy occasion. The foreigners will probably be few in numbers.

M. Pallicre's album No1 was delivered on Saturday: it is beautifully got up,and not only reflects credit on the eminent lithographic establishment of Mr. Robertson, but is a patent sign of the advancement of B. Ayres. Two pictures are delivered forthnightly : those of the present number were—Soldiers crossing the Portofn at Mass. Had we a painter's soul, and poet's pen, we might describe these charming productions, but we must entitle M. Pallicre *excellence* to be considered the painter of La Plata, but we feel it impossible to do them justice, other than by advising our readers to inspect them.

Two new steam-packet companies have been started, to connect Europe and the River Plate. The French Government will run a steamer monthly from Marseilles to the River Plate direct, in addition to the Bordeaux packet started at the Brazils. Messrs. Lamport and Holt are agents for the "Brazil and River Plate Steam Co." contemplating a steamer to leave Liverpool on the 8th of each month : the Kepler will be succeeded by the Galileo, Copernicus, Herschel, Newton, and Ptolemy. This makes nine monthly lines of steamers from Europe.

Telegraph Wires in Paraguay. 500 miles and 4 Stations.

We are glad to notice the arrival of a German engineer, M. Richard von Fischer, en route for Asuncion, engaged by President Lopez for the purpose of laying down telegraph wires through out Paraguay. The wires, other materials, and machinery for fourteen telegraphic stations have been already sent to their destination. One line will extend from Asuncion to Villa Rica, 100 miles; another will run along the river from the former city to Humaitá and the confluence of the Paraná and Paraguay, 180 miles. The third line will, we suppose, connect the capital with the ports of the upper Paraguay.

An assistant of Mr. Fischer will arrive by next packet, with fourteen 14 English engineers and mechanics, arrived per Mersey, go up also in the Iguery steamer, the wife of another English mechanic in the arsenal of Asuncion.

Everything in Paraguay now-a-days denotes gigantic progress, and we entirely coincide with the "Precursseur d'Anvers' that the Government of that country is earning for itself a character of wisdom and advancement.

THE ARGENTINE CENTRAL RAILWAY.

The greater part of the shares have been taken in London, and Mr. Wheelwright, taking a now position amongst the promoters of progress, had invested his own private means in the shares which should have been placed here, reserving to himself the chance of transferring them.

Mr. Wheelwright has thus invested his own fortune, and as much of his friends as he could induce to join, in an undertaking which will bind them to this country. This is sufficient to guarantee the confidence which is felt in the realisation of the work, and it is also sufficient to show to what extent Mr. Wheelwright has made this country his debtor.

At the sailing of the packet, there were four vessels loading rails and machinery for the Cordoba Railway, and Mr. Wheelwright intended leaving for this country in the middle of June.

A private letter, from an influential man in London, says :—"The indefatigable Mr. Wheelwright has told me, that in order not to hinder the formation of the company, he has had to advance from his private means a sum sufficient to cover all the shares subscribed for in the Argentine Republic and that he will return there in June next, in order to recover these funds. This gentleman is well worthy of all the support and consideration of the government, as he has done us acts of great importance. To show the interest that, as Argentine, I take in the Cordoba Railway, I have just subscribed for 40 shares, besides the 10 already subscribed for in Buenos Ayres, and I am sorry that I cannot take more."

Another letter says, as follows : — "I have only time to tell you, that through the constant energy of Mr. Wheelwright, the Cordoba Railway has been started, and what will not astonish you, that he leaves for Buenos Ayres in the first packet. His personal friends will receive the greatest joy with subscriptions, and, at the same time, he has not hesitated to sink a large part of his fortune, in order to comply with the promises he made the Argentine nation. There are few men who have inspired such confidence in his country and good faith as Mr. Wheelwright ; and, I am happy to say, that owing to this confidence, Messrs. Brassy and Wytes have joined in this energetic work with the greatest cordiality, lending all their weight to crush the opposition which has lately sprung up against this undertaking."

In the course of the last lines, we ought to say, that Mr. Robertson opposed the railway at first, perhaps owing to false information which was spread against the project.

One of the most influential persons in Buenos Ayres, and on whose judgement Mr. Robertson depends, has since altered his opinion on the subject, and showing that the fate of Buenos Ayres is bound up with the future of the interior provinces, and that most interested in the fate of Buenos Ayres should be the first to attend to the credit of the Nation. The Central Railway must also be looked upon as a fait accompli."

We shall soon have in our ports the vessels which are bringing the plant for the Cordoba Railway, and soon also shall the works be commenced.—*Nation Argentina.*

CONGRESS

During the present session, we will devote a portion of our space to report the proceedings of the National Legislature, and make comments thereon. As yet, it may be said, the Chambers have done little more than appoint committees. We regret to see the hostility of M. Pifiero ('Nacional') so soon declare itself in a proposed vote of censure upon the National Executive, relative to the neglected state of the Cordoban frontier and the Indian invasions. M. Pragueiro, who has just been named head of the 'Public Credit' Department, joins the former in attempting to throw *discredit* on President Mitre.

RESIGNATIONS

The 'Nacion Argentina' assures its readers that the deputies who intend resigning their posts in the present chambers, in order to be replaced by candidates of the Club del Pueblo, will be the following :—

Dr. Don Bonifio Suiar,
" Carlos D'Amico,
" A. Gonzalez,
" Dardo Rocha,
" Manuel Quintana.

These gentlemen are thus made scapegoats for their party, for the benefit of the proposed fusion, but will be fully repaid for their political self-denial, by witnessing another election. The gamblers' saying, of the 'next best thing to winning is losing,' might be paraphrased by Buenos Ayrean politicians into 'the next best thing to being deputy is voting for deputies,' Every Argentine citizen looks upon being senator or deputy, as the 'summum bonum' of life, a phrase which was once freely translated by a brazen-nose man as the 'height of honour.'

THE PROVINCES

We extract from the 'Tribuna :'

Corrientes.

With respect to affairs here, the only thing new is the resignation of Minister Camelino, which was sent in yesterday, he, no doubt, intending to go and occupy his seat in the National Chamber of Deputies.

The Governor's candidate is Dr. Don Felipe Jose Cabral, who is, as a private individual, most respectable, but how he will do as Minister is another matter. It is supposed by some that he will not accept the post which is offered him.

This news is not generally known, but I have it in confidence from Sr. Lagrans—? Your Correspondent.'

San Juan

There have been various robberies, and even some murders, in Medano and the Lagunas.

There are several bands of robbers, headed by a man called Mendoza, which have committed an extensive robbery on some travellers from San Luis.

Sr. Zacarias Yauzi had arrived at that capital with a quantity of bar silver, received at the furnaces of Don Domingo Mini. This should re-encourage the miners, who are but too apt to lose heart at small discouragements. Dr. Rickard contract has been finally arranged, and we congratulate the province on this happyy result. Sr. Sarmiento had arrived at the Andes, whence he wrote that he was on the point of passing to Valparaiso, before going to Santiago.

Tucuman

Government had contracted with a Senor Gerenaldo, the representative of a joint stock company, for the construction of a public market. The privilege to last for 30 years.

An Italian, Vicente de Bruzz, has requested from the Government the monopoly for 10 years of indigo growing in the province ; and the examining committee advises its being granted.

A concert had been given in that city for the benefit of the hospital.

THE WAR IN EUROPE.

Attempt to Storm Dybbol,

We have received the following telegram from our special correspondent at the Danish Headquarters.

"Sonderberg, Monday, 9.30 A.M.

"This morning, at 8 o'clock an attack was made on Bastion 6, and on the whole Dybbol lines.

"The Prussians were three repulsed ; at last the Prussian soldiers refused to obey their officers' command to advance.

"The Rolf Krake fired on the Prussians' right from Wenningbond. The engagement lasted seven hours. The cannonade continues. One hundred Danes are killed and wounded. 92 Prussian prisoners have been taken. Only four Danish regiments were engaged.

The use of the Danish stamped paper with the King's initials has been prohibited in Schleswig, as has also been the use of the name of the King of Denmark in the churches.

The salaries of dismissed officials have not been paid.

Danish coinage has been abolished in Schleswig, and that of Germany introduced in its stead.

A Government office for the supervision of the Schleswig postal arrangements has been established in Flensburg, at the head of which is an official from the Prussian post-office.

MEXICO.

Vera Cruz, Feb. 14.

The report of the abdication of Juarez which had been circulated is stated to be unfounded.

Numerous desertions have occurred in the Mexican army.

The head-quarters of the guerillas of the province of Tierra Caliente are still at Huetchapan.

The cruise of Admiral Bosse has been productive of very satisfactory results.

It is asserted that the Federals have violated Mexican territory by going to Matamoras in order to seize cotton belonging to the Confederates.

The accounts from Mexico are generally speaking, encouraging. I do not allude so much to the official reports or correspondence published in the *Monitour* or the Government papers as to the private letters from officers of the army to their friends in France. A good number of the junior officers, the unmarried ones particularly, seem very desirous of remaining in the country and taking service in the auxiliary force which is to aid the Mexican Government in the establishment of order. They speak favourably of the population of the city of Mexico, and especially of the Mexican young ladies, so that we are likely to hear of several marriages. We get, it is true, but little detailed information as to the working of universal suffrage for the election of the Emperor. Six or seven years ago the population of Mexico was about 10,000,000, divided into five different classes. The direct descendants of the Spanish settlers were about 300,000. Those spring from Spanish and Indian parents, who followed the military profession, or were employed under Government, and who considered themselves as whites, numbered about 800,000. The Indian population, speaking the Aztec or old Mexican, living in villages in a state of servitude and misery, constituted the agricultural, class, and counted no less than 4,000,000. Then there are the mixed—the Mestizos, who by their various names, such as Cambos, the issue of Indians and negroes ; Mulattoes, of whites and negresses ; Terceros, of whites and Mulatto women ; Quadroons, of whites a nd Terzeros ; Octoroons, &c., to the tenth shade of copper-colour. These—the whole comprising about 1,500,000. We have, lastly, about 40,000 or 50,000 "Gapuchinos," the nickname given by th Mexican to the Spanish and other Europeans, from the habit worn by the Capuchin Friars under Cortes. Were the inquiry worth making, we might know what the Zambos and the Indians thought of universal suffrage, and whether anybody troubled himself with explaining the "immortal principles of '89" or the theory of the "rights of man" to them. It was a vast deal about "nationalities," and of the wars that ought to be waged to set them free ; but it would be somewhat difficult for the advocates of the principle to apply to these mongrel populations. So far as mere numbers go, the Mestizos, Cambos, &c., have the majority. When the Government is properly installed, Maximilian would do well to follow the example of the old Kings of Spain

guineas, the good example being followed by the noble chairman and the Lord Lieutenant of Ireland with 50 guineas each. "The health of the Stewards" was then proposed and responded to by Mr. Hamilton Geale. Other toasts followed, and the festivities concluded at a late hour. The chairman was ably supported by Earl Courtown, Sir Harvey Bruce, General Watking, General Brown, Dr. Connor, Messrs. Morgan J. O'Connell, Hamilton Geale, Latouche, Newton, Bainbridge, etc. The musical arrangements were under the direction of Mr. Land, and Miss Eyles sang a number of Irish melodies with great taste and feeling.

LONDON WOOL MARKET.

April 7, 1864.

We have received 1713 bales from Buenos Ayres per Carolina, Maria, Cantoos, and per steamer Kepler via Liverpool. The demand has been very active, but as our stocks offered little choice, transactions are confined to 745 bales at the full prices of 1 fr. 30c. to 2fr. 35c. (5-15-32d. to 9-11-32d. = 1½d. to 19c). Some lots of Buenos Ayres of the new clip, which have appeared upon the market up to the present time, were of middle good quality, although thin and more charged with thistles than wools of last year; then fetched for rather fine good middling Merinos 1fr. 85c. to 2fr 10c (equal to 8 sale in England at 7 27-32d to 8 20 32d). Metis 1st, 1fr 75c to 2fr (7 7-16 to 8 1-32); Metis 2nd, 1fr 45c to 1fr 90c (7d to 8 1-16d.; Metis 3rd, 1fr 65c to 1fr 70c (7d to 7 7-32d) lambs. 1 fr 65c to 1fr 90c (7c to 7 21-32d). 200 bales Russian have also been sold at 2fr 20c to 6fr 40c (8 15-16 to 16 1 8d = 18 3 10c to 35c) according to quality. Sheep skins continue in good request; 1,000 pieces have been sold at 1fr 22½c to 1fr 25c (4 15-16d to 6 6-32 =10 1-8c to 12½), according to assortment. Our stock is reduced to 10 bales, but several arrivals are shortly expected.

THE PEACEMAKERS

To the Editors of the 'Standard.'

Gentlemen,

In the last number of the 'Standard,' you give an erroneous account of the compromise consummated between the two rival factions and which resulted in the suspension of the elections by the Provincial Government.

The honor of mooting and bringing about a peaceable arrangement between the Crudos and Gondios, belongs exclusively to Governor Saavedra, whose you represent in a false position. At his invitation, Dr. Esteves Seguí undertook to call upon the most influential persons of both parties, and arrange differences, in order that the country might be spared the disgraceful scenes which have on many occasions unfortunately attended the elections.

Notwithstanding having failed in his endeavours on the 20th of last month, to effect an arrangement, by the members called to the Government House for that purpose refusing to accept the terms proposed, Governor Saavedra has had on this occasion the satisfaction of seeing his efforts crowned with success.

The terms agreed upon were communicated to General Mitre by M. Riestra, President of the Senate, and his guarantee solicited for the *buen fido* carrying out of the compromise on the part of the Club del Pueblo. The President, having approved of the terms, undertook to procure their acceptance by the club, and extended the required guarantee. This is the sole intervention of the President in the affair.

It should be said, in justice to M. Riestri, that he was untiring in his efforts to second Dr. Esteves Seguí in bringing about this happy result.

These are the facts, and consequently we are all indebted to Governor Saavedra and Messrs. Riestra and Esteves Seguí, for the arrangement between Crudos and Cocolios. And to those gentlemen belong exclusively the honors which you in your Sunday's paper extend to others.

I remain, Gentlemen,

Your obedient servant,

JUSTICIA.

LOCAL EVENTS.

Montevideo.—The 'Reforma Pacifica' of Montevideo has a plan for finishing the war at once without Brazilian intervention, and the plan is simple and clegn in the extreme: it has only one drawback, but that is nothing. The idea is—" Let the Oriental Government pay 8 patriocos for every 100 horse which is taken away from Flores."

The drawback is, who is to bell the cat?

The idea is not original, for some months ago, another great power hanged 150,000 rebels, by *decree* unfortunately the rebels, like the magic of Bluebeard was not a whit the worse of being hanged by hook and by candle, and we are sorely afraid that Flores will not be much crippled by all the horses which are taken from him. A better plan would be to offer all Flores' troops government steamers' passage, and a reward, beside a free pardon,

Reception of Senor Saravia.—On Friday last, at 1 P. M., Señor Saravia, Special Envoy and Minister Plenipotentiary of the Brazils, was received by the President of Uruguay. He made a short speech in which he made no mention, of intervention, but said that his duty would be principally confined to protecting the rights and interests of his fellow citizens. —*Reforma Pacifica.*

The Argentine Navy.—The 'Pueblo' states on authority that the steam er Gualeguay is not to be chartered. The Argentine Navy reminds us a good deal of one, of the German Dukes who, in 1818, wishing to put his army on a war footing, had to incur great expense to pay the forfeit money of his whole army who had joined the orchestra of the Opera Comique of Paris. The navy of this country is *almost* as useful.

Maritime Intelligence.—The French barque "Jules Louis," bound from Rio de Janeiro to Havre, had to put into Bahia on the 10th of April, making water.

The steamer Una.—This steamer was advertised to leave Montevideo yesterday for Liverpool direct. We have not heard whether the complement of passengers was made up or not, but we hope that she will have a little better luck on her homeward trip than the Sicilia had, and that she'll also lay in a good supply of sand.

The Police Reserve.—The police, by keeping their eyes open, could derive a very handsome revenue from arresting people carrying arms. From the 17th to the 24th of April, no less than 900 dollars have been collected from gentlemen carrying prohibited arms. Of course, they would not be interfered with if they were exercising the onerous duties of electors, and using the arms against the opposite faction. It is a strange fact, that since the 24th of April, not one single dollar, depreciated paper, has been collected for the same offence by the police.

Privy Rentes.—On the 13th inst., the Villa del Salto, with 441 inhabitants on board, reached this place, and this small force was landed, but found that the Liberating army had marched. The troops returned on board, and the steamer went up the river. See the authority, and believe it or not, just as you choose.—*El Plata.*

The last steamer from Southampton —The steamer Oneida, which left Southampton on the 9th ult. was a perfect British Bible or Burke's Peerage, there being on board—Duke Estrada and lady, Marquis Miglistire, for Rio de Janeiro; Prince de Joinville, for Lisbon; Mr Consul Phibbs, Sir Henry Beecher, for Buenos Ayes. Amongst the passengers we see "two ladies, friends of the Duque Estrada"—were they not also friends of the Duchess? We also see two Barrons mentioned, but their other titles are not given.

ON 'CHANGE.

Paper price of ounces 457½.
Paper price of sovereigns 136¾.

There was a good deal of business done on the Bolsa to-day in specie, principally in time sales. Patacons realized at 28 70, and closed at 28 60. Cash sales 57,965.

Time sales were unusually heavy; 120,000 patacons were sold on long dates at considerably under those of last week. The paper money is showing the beneficial effect of economy utilization. Another quotation on the Bolsa to-day it was observed the great anxiety of many brokers who were bulls last week, to secure their ounces at present prices, as people are beginning to think that patacons will suffer a serious depreciation now that politics have cooled down. Besides that it is known by the wide awake brokers that there is a gigantic scheme on foot for the buying up all the paper dollars by the National Government, the President having received a proposition from a leading English house to lend the amount necessary, receiving in security mortgages on the public lands, and the right of emitting convertible bank notes. Time alone will prove how far this is, practicable, but there seems to be no doubt about the measure being introduced at this Congress.

SAVINGS BANK
BANK MAUA & C°
No. 103 calle de Cangallo.

BUENOS-AYRES.

The immense advantages of *Accounts Current* are now so generally felt, and appreciated in the two great emporiums of the River Plate—Montevideo & Buenos Ayres—that there are very few Merchants who fail to keep one at the Bank in which they place the most confidence.

The Bank of Mauá & Co. in Montevideo has already provided for the working class in that city, a safe & profitable depositary for their savings.

The sums deposited in that most important institution are daily increasing and already reach a very large amount.

These advantages have not hitherto been enjoyed in this city by an immense number of Clerks, artisans, working-men & servants of all classes & conditions, who are equally interested in putting their savings out at interest, thus providing themselves with a *reserve fund* in case of *need, sickness* or *old age*, instead of spending them in the immoral gambling, in lotteries and other frivolities.

The Bank of Mauá and Co. of this city following the example of their firm in Montevideo now offer the same facilities in this city and will open on the 1st October a "Savings Bank" at No. 103 calle Cangallo from 9 a. m. to 3 p. m. on week days, and on Sundays and holidays from 10 a. m. to 12 m. for the reception of the savings of the classes already mentioned.

The Bank will deliver to each depositor a Pass Book in which will be entered the amount deposited and withdrawn.

The depositor is permitted at *any time* to withdraw the *whole or part* of the sum deposited, in the former case the interest will be calculated up to date.

The Bank of Mauá and Co. is sufficiently known to the public by the benefit derived from the course of its operations which are regulated on the strictest and soundest principles and always directed to promote the general welfare.

The Bank of Mauá and Co. are also persuaded that this new branch of their business will render immense service to the working classes of Buenos Ayres and its neighbourhood.

Buenos Ayres September 19th 1863.

p. p. Mauá & Co.
WILLIAM LESLIE.

CONDITIONS.

1st. The Bank receives at interest any sum from *Twenty five dollars currency* or *one silver dollar* upwards.

2nd. The interest allowed is *six per cent* [6 p$] per annum which is liquidated every six months.

3rd. The depositor can at any time retire the *whole or part* of the money deposited.

4th. Once the amount deposited exceeds *Twenty five thousand dollars currency* or *one thousand dollars silver* the depositor if he wishes can open an *account current* according to the rules established by the Bank.

5th. In case the depositor loses his Pass Book it can be replaced by another on paying *twelve dollars currency*, and advertising the loss in the public newspapers.

Subscriptions in Paper Money.

The Directors, wishing to enlarge the operations of the Society, have decided to the request of many people in this city, and determined to issue shares payable in Paper Money of Buenos Ayres, under the following conditions:—

Article 62—From the 1st of April, 1864, shares shall be issued to such persons as may wish to pay in Paper Money of Buenos Ayres, and in accordance with Article 17 chapter 5 of the Statutes of the Society, the lowest sum receivable being $200 nominally, payable in one sum, or in instalments, subject to the following rules:

1st—For Paper Money Subscribers sections will be opened and kept separate from Silver Money Subscribers.

2nd—The liquidation of the sums belonging to the sections of Paper Money Subscribers will be administered according to Article 31 of the Statutes, and for account of these particular sections.

By these means the Directory hopes to gain its object which is to enable the poorer classes to enjoy all the advantage of the Society.
